

Colour Range

Holcim

Holcim strongly recommends viewing our samples at one of our display locations before finalising your Concept Decorative Concrete choice.

The raw materials used to make the Holcim Concept range are products of nature and therefore subject to variation in consistency, appearance, quality and texture. The samples shown in this brochure are indicative and illustrative only of the type of finish expected. This concrete is manufactured to Australian Standard AS 1379. No guarantee of the product's coloured or textured finish is given or implied. Concrete must be dry (not exposed to water or rain for a minimum of 72 hours) prior to acid washing and sealing. Sealer manufacturer's application directions must be followed.
